

CAMP PURSUIT

World edition

"We may have fun and zany courses, but it takes the right teacher to make the experience come alive."

Justin Vawter, NuMinds Enrichment Co-Founder and CCO

NuMinds Enrichment is in search of passionate, creative, innovative and fun individuals who inspire and ignite life-long learning in campers.

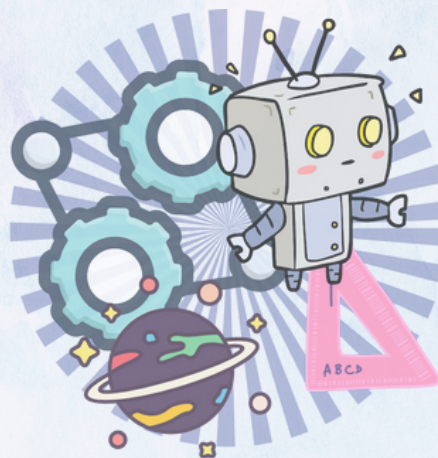

What is Camp Pursuit World Edition:

Camp Pursuit World Edition is an online camp for incoming 1st through 8th graders. There are six themed Adventures--each with six separate courses. Campers access all six courses at their own pace, choosing the projects and activities they want, ignoring the ones they don't. This nonlinear system is intentionally designed to reflect the purpose and the very name of Camp Pursuit--providing campers an opportunity to pursue what they are passionate about and cultivate a talent in that area.

The Adventures are scheduled as follows:

1. Engineer Adventure (June 1 - June 12)
2. Make & Create Adventure (June 15 - June 26)
3. Nature Adventure (June 29 - July 10)
4. Explorer Adventure (July 13 - July 24)
5. Tech Adventure (July 27 - August 7)
6. Superheroes and Secrets (August 10 - August 21)

* Total number of enrolled campers will be shared in advance.
Should the number exceed 50 campers, a TA will be allocated.

Duties and Responsibilities

Review course curriculum to select and prepare five activities you want to do with campers
Create a welcome video for the campers--to introduce yourself and an overview of the course
Post an instructional video for each of the five activities you chose with step-by-step instructions and options for beginning and advanced learners
Respond to all camper comments, questions, and submissions within 24 hours (excluding Saturday and Sunday).
Share a daily message (video recorded or written) with campers

Required Skills

Exhibit initiative and creativity in determining and modifying curriculum for the online learning environment
High proficiency in technology - including, but not limited to, recording instructional videos and utilizing Google Classroom
Ability to adapt course curriculum and manage multiple assignments
Strong interpersonal and communication skills, with the ability to effectively interact with campers of all levels and backgrounds

Qualifications

Commitment to Real Inspired Learning
Knowledge of K-12 educational practices
Completed 3 hour NuMinds Inspirator (teacher) training
Reliable personal device and access to internet
Experience in delivering fun, engaging online learning
Dynamic, on-screen personality
